## CESSNA SEAT RAILS, ROLLERS, **WASHERS, & BUSHINGS**

**Seat Rails** 

These FAA-PMA replacement seat parts were developed to assist in complying with the parts replacement requirements of A.D. 87-20-03. This A.D. requires the periodic inspection and replacement of seat components of the entire Cessna light aircraft fleet. Our Parts are direct replacements for the wear related seat components. These seat parts are superior to the O.E.M. parts in many ways. Our rollers are fabricated from molydisulfide filled nylons for improved strength and self lubrication. All rollers are fully machined from extruded stock for finer surface finishes and higher strength. Our wear washers are tougher with far better wear and aging resistance. Seat rails were carefully engineered with small improvements for added strength, longer life, and easier installation without any sacrifice of full interchangeability with the O.E.M. parts.

## SEAT KIT COMPONENTS (1 SEAT)

All rollers are fully machined from extruded stock for a finer surface finish and higher strength. The bushings are machined from alloy steel for longer life and greater wear resistance. The wear washers are made from a super tough acetyl plastic and have far better wear properties and resistance to aging

proportion and recolation to aging.

## **CESSNA FLAP ROLLER KITS**

FLP-KT-1

FLP-KT-2

Flap attachment kits are available for Cessna aircraft from Cessna 150 thru T210. Each kit contains FAA-PMA replacement rollers, bushings, and spacers for the flap attachment of one airplane. Our ASS1450-5N12-050 shims are stainless steel for better corrosion resistance. Individual FAA-PMA components are available on request.
