

KNISLEY WELDING INC. PIPER AIRCRAFT EXHAUST PARTS

Knisley Welding Inc. has been a family owned and operated business serving the aviation community since 1974. Glenn Knisley, who was working at Mather Air Force Base at the time as a supervisor in the welding department, began the company with the idea of filling a need for aircraft exhaust systems that were difficult to find. Glenn was retired from the military where he had received training in welding. The idea for the company began when an aircraft owner brought a muffler to Glenn for repairs because there was no one in the area repairing exhaust systems. Glenn then approached his brother Floyd Knisley as a partner for the start up company that was first located in Rancho Cordova as a repair station. In addition to recreational flying, at that time there were many small planes flying as crop dusters in the Sacramento Valley.

Description	A/C Model	FAA/ PMA	STC	OEM P/N	Part No.	Price
Knisley Piper PA-18 Exhaust Stack Front K12457-12	18	N	Y	K12457-12	05-07569	---
