

AIRCRAFT TUGS

TOWFLEXX 2-SERIES LIGHT AIRCRAFT TUG

The TowFLEXX® 2-Series light aircraft tug is designed to make your pre-and post flight experience much more enjoyable, easier, quicker and safer. Say goodbye to sweating, pulling, pushing and using your own brawn to move the aircraft — you now have a smart solution that makes moving your plane simple and efficient. Revolutionary design, providing many advantages,... and saves your back.

Small, versatile, powerful, and reliable. Applicable for most light single engine and twin-engine aircraft up to 8,800 lbs (2t) MOTW.

The TowFLEXX® towbarless electric hand-guided aircraft tug, is a unique, patented, versatile, adjustable and simple to use light airplane tow system that saves valuable time and allows aircraft owners, pilots, ground crews and hangar operators to maneuver airplanes in and out of hangars with ease.

Features: • Ergonomic Height Adjustment • Comfortable Lever for easy Coupling and De-Coupling • Easy and simple Steering • Forward and Reverse • Adjustable Speed Control • Smooth Acceleration • Universal Adapter for a wide Range of Aircraft • High Capacity Battery Pack with long Service Life • Extended Charging Cycle Time • Maintenance Free • Environmentally friendly • No Exhaust • No Noise - Silent • Easy to operate • Weatherproof

Benefits:

Universal & Adaptable

• Every TowFLEXX® 2-Series is supplied with the universal main u-fork coupling adapter, incl. a set of sliding standard adapters for easy aircraft docking.

• Easy adaptable with quick lock pins. No tools required. The system provides a wide variety of different adjustment options.

Adjustable

• The main u-fork coupling adapter can be height adjusted to fit specific aircraft characteristics. The angle can be changed with ease with quick lock pins. The bracket also includes a provision for a ball-hitch attachment allowing to move trailers.

Flexible & Convenient

• The main u-fork coupling adapter is flexible and connected to the tug frame with a swivel joint that allows the adapter to rotate. A comfortable lever allows the operator to open and to lock the main u-fork coupling adapter. The steering handle is height adjustable for best ergonomics and to fit the operator's physical height and figure.

Easy to Operate & Comfortable

• The standard handle provides a solid grip and the operator is firmly in control. Adjustable speed control with forward and reverse selector switch. Smooth acceleration technology eliminates the twitchy instability found in gas powered aircraft tow clutching systems. The tug is also available with the optional multi-functional three-axis tiller control handle for additional convenience.

Features & Quality Unmatched by Others

• Every TowFLEXX® 2-Series is equipped with LED lighting for easier operation at night time or inside dark hangars. This tug is designed and manufactured like no other. Solid, rugged, powerful and built to last.

Battery & Electronics

• Every TowFLEXX® 2-Series is equipped with a top-quality long-lasting battery set. The rechargeable 24V 33Ah maintenance free lead-gel battery pack is designed for approximately 3 hours operation and 5 days in step (when fully charged) including short-circuit protection. An advanced battery charger is included that is suitable for uninterrupted service and continuous operation with an auto-shutdown function.

• The battery box can be easily removed from the tug to provide access to the electrical compartment and motor.

Powerful

• Powerful high-torque rotary drive 24V 500W DC effective power electric motor resourcefully applied.

• Allows noiseless silent maneuvering and movement of single-and small twin-engine aircraft up to max 8,800 lbs (4t) quickly and safely in tight areas. Environmentally friendly - no exhaust.

Easy Handling

• Ergonomic height adjustment mechanism of the control handle, allowing fast adaptation matching the operators height for user comfort.

• Easy and simple steering by hand, via raising and guiding into the steering direction. Operation is a breeze because of the forward and reverse acceleration switch mechanism with adjustable speed control.

TOWFLEXX SM2.2 8800 LB HELI TUG

Small, powerful, and reliable. Especially designed for Robinson Helicopters (R22, R44, and R66).

13-19496: TOWFLEXX Universal Adapter Required information: Aircraft Make, Model & Serial No. Attention: Adapter required / sold separately

Electrical Motor

• Powerful high-torque rotary drive 24V 500W DC effective power electric motor resourcefully applied.

• Allows noiseless silent maneuvering and movement of Robinson helicopter rotary aircraft up to max 8,800 lbs (4t) quickly and safely in tight areas. Environmentally friendly - no exhaust.

Easy Handling

• Ergonomic height adjustment mechanism of the control handle, allowing fast adaptation matching the operators height for user comfort.

• Easy and simple steering by hand, via raising and guiding into the steering direction. Operation is a breeze because of the forward and reverse acceleration rocker switch mechanism with adjustable speed control.

• Universal adapter (fit's Robinson Helicopters) for quick tool-free attachment, fast and simple guidance.

Ergonomic Multifunctional Three-Axis Handle

• In basic configuration the tug is equipped with the standard handlebar control.

Removable Battery Box

• The rechargeable 24V 33Ah maintenance free led-gel battery pack is designed for approx. 3 hours part time operation (fully charged) including short-circuit protection. Can be easily removed from the tug and also to be used as ground power supply for the aircraft.

Battery Charger

• Advanced timer circuit battery charger for uninterrupted service and continuous operation incl. auto-shutdown function.
