SAFE T CHOCKS

 "Safe T Chock Line" pull rope is a new patented product invented to prevent injuries while chocking wheels on aircraft, GSE, trucks and trailers. The Safe T Chock Line is a high visibility poly braided rope with a vinyl tube sleeve for a handle that will not freeze or cause rope burns. It is also sleeved to slide thru the center hole in the chock blocks. It can easily be modified to fit almost any type of chock block. This type of chock block pull rope is designed to reduce wrist, hand and finger injuries as well as making it safer to chock and un-chock aircraft and vehicles.

CUSTOM WHEEL CHOCKS FOR LARGE JETS

 These custom wheel chocks are lightweight aluminum for large corporate jets. These wheel chocks are carefully fabricated, engraved and then covered with durable powder coating available in grey, black, or orange. In addition to being stylish, these wheel chocks are very durable, long lasting and won't corrode. These are offered as a single pair for nosewheel or as two pair (one for each main wheel). Designed for single main wheel aircraft and are 12" long and made of .25" thick aircraft grade aluminum.

PROCHOCKS

 Prochock Wheel Chocks are Made in the USA with high quality materials and a unique design helps stabilize the chock from rolling over and being push around by the aircraft or on windy days.

13-24591
Prochock uses a very dense rubber material that creates high friction on the surface and uses a reflective line material to hold the chocks together and are low-profile that were initially designed for Cirrus wheel pants.

Features: • Low Profile - 1-7/8" (H) - Great for Wheel Pants • Reflective rope - 3/8" - for nighttime visibility • Light weight - approximately 1.8 lbs • Overall length - approximately 40" • Made in the USA. • Assembled in New Hampshire

PROCHOCK MINI ULTRA LOW PROFILE WHEEL CHOCKS

 Made from the same high-quality material as our standard size wheel chocks. We now have wheel chocks to support the RV community or anyone with very low clearance from wheel fairing/pant to the ground. At only 1 inch in height, this small light weight wheel chock has great grip to the surface due to our rubber composition we use for our chocks!
